

AN OFFICIAL PRESS RELEASE

QRS MUSIC TECHNOLOGIES, INC. Announces PNOmation³ WB, the 2017 version of its flagship PNOmation³ player piano system.

PNOmation³ WB, adds and integrates Wi-Fi Direct and networked, Bluetooth MIDI and Bluetooth Audio into its flagship PNOmation³ processor.

Seneca, PA, January 15, 2017 - QRS Music Technologies, Inc. (OTC: QRSM), a leader in the design, manufacture and distribution of piano-based audio, digital and multimedia products, music, piano technologies, Story & Clark pianos, and other digital audio accessories, announced the release of PNOmation³ WB. Adding Bluetooth MIDI & Audio, and Wi-Fi Network and Standalone simultaneously.

PNOmation WB allows for simultaneous Wi-Fi modes of Stand Alone and Networking, as well as Bluetooth Audio and MIDI. Simultaneous Wi-Fi integration allows customers access to the system through their home or through their piano or both if their Internet signal drops or there is a router change. Bluetooth MIDI adds the power of wireless connections to laptops and tablets for playback, recording or connections to third party apps without latency. Bluetooth audio allows the customer to move their home speakers to be the source of their background music with out wires.

Built into the PNOmation platform it inherits the features and benefits of QRS's best selling player system. Any Wi-Fi enabled device can access and control and setup the system. Auto update OS and music library, finding and linking to a customers network is easily done through the embedded QRS App.

"We have integrated Wi-Fi and Bluetooth technology into our top selling player piano system "PNOmation". Home setups just became unbelievably fast and easy. Use of the system with out a network connection or reliance on a tablet or app store app continues to separate QRS from the pack. Setups are a snap and flexibility of use through different devices or PNOscan use cases for recording and teaching studios deliver options not possible before. We are excited for our customers to experience these new features" Thomas Dolan President & CEO

QRS Music Technologies, Inc. (OTCB:QRSM) is a leader in the design, manufacture and distribution of music technologies, pianos and piano accessories including, Pianomation®, PNOmation and PNOscan musical instrument digital interface (MIDI) for reproducing player systems for acoustic pianos, and music content from digital to music rolls. QRS is the creator of Pianomation®, the first MIDI system to combine analog and digital technology to turn any piano into a reproducing player piano. QRS Music was founded in 1900 and is based in Seneca, Pennsylvania. Additional information about QRS is available at www.qrsmusic.com
